

ETHICAL PRINCIPALS

We are committed to improving our environmental impact through:

- Sourcing produce, products and services locally, ethically and organically where possible
- Using sustainable seasonal gastronomy
- Improved offer of healthy food options
- Using ethical and organic beauty and spa products – Neal's Yard Remedies
- Reducing waste by recycling and composting
- Reducing energy use and installing renewable energy sources where practicable
- Using ecological laundry & cleaning products
- Encouraging guests to adopt green values by reducing changes of towels and bedding
- Hosting health, wellbeing and fitness breaks and workshops
- Using a salt treatment process in our pool for cleaning rather than chemicals
- Procurement of refurbished machinery for the kitchen, laundry and garden
- In-house refurbishment of furniture creating more jobs and local crafting skills alive
- 90% water saving by replacement of baths with showers
- Introduction of indigenous planting schemes in the gardens reducing water consumption by approx 50%
- Employment and training of local people, supporting the local community
- Partnering hotels in Alpine destinations with a "job exchange" scheme providing staff with year round employment and the opportunity to enhance their careers
